## Patient Preparations for Exams

- GI Series and/or Small Bowel Study**  
 Nothing to eat or drink after midnight before the exam
- Barium Enema**  
 Obtain 24 hour prep kit from your physician or purchase at your local pharmacy as directed by your Physician and follow package instructions.
- Abdominal/Gallbladder Ultrasound**  
 Nothing to eat or drink 4 hours before exam.
- CT of the Abdomen/Contrast Enhanced CT**  
 Nothing to eat or drink 4 hours prior to exam. Oral Contrast is available at any of the three Southern Hills Imaging locations (shown on the map to the right). Follow your physician's instructions. Diabetic patients on Metformin-containing medication should contact your physician for special instructions.
- MRI of the Abdomen/MRCP**  
 Nothing to eat or drink 4 hours prior to the exam.
- HIDA Scan**  
 Nothing to eat or drink 4 hours prior to exam.
- Thyroid Scan**  
 Discontinue thyroid medications 3 weeks prior to exam and antithyroid medications 3 to 7 days prior to exam. No CT or IVP contrast for 4 weeks prior to exam. No Amiodarone for 3 to 6 months prior to exam.

### Registration

Please plan to arrive 15 minutes early to register. During registration you will be asked to show a photo ID and your current insurance card.
